   - whether enabled zoom in or not
   - whether you use Apple Pencil or not
4. Tap "Done" button (see Fig. 4)

Configuration (2/2)

Fig. 4

Information

▶ UP2 uses a lot of memory for presentation. It is thus strongly recommended to finish presentation properly before you close UP2

▶ Although you can use all functions of UP2 at no charge, the author would appreciate it if you consider a little about making a donation[6]. Since it is thought that UP2 will be mainly used on academic activities, he decided to distribute UP2 free of charge. On the other hand, he should pay about \$100 annually to Apple at his own expense for keeping to be available UP2 on App Store. If you like UP2, your donation would be supportive of keeping UP2 on your iPad's

[6]To donate the author, tap "Information" button (see Fig. 1)
